Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 7 & 31-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Flannery(393).

Regarding claims 7, 31-32, 37-40

Flannery teaches a table, an opaque tabletop, a dealer, a plurality of player positions, a translucent planar window with a light source (see figure 1 and [0023]. Flannery, fails to teach that his light window extends around the game table. It would have been obvious to one of ordinary skill in the art at the time the invention was made to place the light source anywhere desired or expedient on the table. Such would be considered a design issue and would present little or no difficulty to one of ordinary skill.

Regarding claims 33-34

Examiner takes official notice that game tables are known to have rigid plates extending around them with pads covered by various choices of desired materials.

Regarding claims 35-36

Examiner takes official notice that windows made of glass; Plexiglas and various types of reflective material(s) are known in the art. The use of a milk-colored Plexiglas would be a matter of design choice and would present little or no difficulty to one of ordinary skill in the art.

Allowable Subject Matter

Claims 9-10 are allowed.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the aforementioned rejection.

Conclusion
